SATUSTEAM™ WEED CONTROL

GREEN NINJA

Green Ninja Pro - Product Specifications

Fast heating, high volume delivery gives you the fastest hydro thermal kill available

The Green Ninja Pro is the smaller machine in our petrol powered range. We also have the electric Green Ninja Stealth available. With up to 60m of hose from the applicator head to the machine, it can reach nearly any area (30m supplied + 30m as an accessory). Plus, it can be connected directly to any garden tap or water tank making life even easier.

It was developed for killing weeds in tight places with flat access, such as nurseries, school playgrounds, and hobby farmers.

Engine Size: 208cc

Engine: 6.5 HP Briggs, Electric Start

Pump Component: belt drive

Fuel Storage: 3 L Petrol and 17 L Diesel
